

REMARKS

In the Office Action, the Examiner rejected the claims under 35 USC § 112. The claims have been amended and are believed to fully comply with section 112. All instances of "material" have been changed to a dental material.

A terminal disclaimer is enclosed to address the double patenting rejection.

The Examiner also rejected the claims under 35 USC § 103(a). Applicant has recited a limitation regarding angular orientation of the light output with respect to the longitudinal axis of the heat sink. Applicant notes that this limitation has previously been found patentable in cases handled by Examiner Ralph Lewis.

Applicant requests reconsideration of the patent application.

Any fees should be charged to deposit account no. 50-0081.

Respectfully submitted this 14th day of March, 2006.

Daniel P. McCarthy
